ABOUT ME

Highly motivated Computer Science graduate skilled in Python, SQL, data visualization, and machine learning fundamentals. I enjoy turning raw data into meaningful insights and building efficient software solutions. With a solid programming foundation and strong analytical mindset, I aim to start my career as a Data Analyst while staying open to hybrid data + software development roles

EDUCATION

Bachelor of Science in Computer Science
MG University
2024 - 2026

Higher Secondary Education (Plus Two) - Computer Science
GVHSS Elamkunnappuzha
Completed in 2022

SKILLS

Technical Skills

- Programming Languages: C, C++, html, Php, Java, Python
- Databases: MySQL, SQLite
- Data Analysis Libraries: NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn
- Data Skills: Data Cleaning & Transformation, Data Manipulation And Processing, Data Visualization, Machine Learning
- BI & Visualization Tools: Power BI, Tableau, Excel (Advanced)
- Machine Learning: Basics of ML algorithms & model building

Non-Technical Skills

- Problem Solving
- Adaptability
- Critical Thinking
- Reliability & Consistency
- Storytelling with Data
- Time Management
- Quick Learning Ability
- Analytical mindset
- Ability to work under pressure
- Self-learning & Research ability
- Collaboration & Teamwork

PROJECT

- Career Recommendation System (ML + Django)
- online shop(html, php, sql)

COURSES & CERTIFICATIONS

- Python + Data Science (Techmindz, Infopark)
